LVOV

LVOV Spirytus is a grain neutral spirit also known as a rectified spirit. A rectified spirit is highly concentrated ethanol which has been purified by means of repeated distillation, a process that is called rectification. LVOV Spirytus is distilled to 96% (192 proof)—effectively becoming a pure spirit. Please note LVOV Spirytus is a high-strength product and we recommend not drinking neat—please enjoy diluted, with a mixer of your choice or as a base for a liqueur and/or infusions.
