At Industria Licorera de Caldas, we have our own nature reserve. A green lung, over 2,200 meters high. Here, the waters that give life to our products are born, and the wood of the Colombian White Oak to make our aging barrels is carefully preserved. Those are our secrets, a unique environment surrounded by the Nevado del Ruiz Volcano, which enables us to produce exceptionally high-quality rums.

Sweet and fruity with a hint of wood and a slight bitterness. The distinctive taste and aroma of our traditional rum make it a favorite. Enjoy it on any occasion.
