Oregon is famous for its Pinot Noir. This wine is a blend made from two of Oregon's famous grape growing regions thus allowing us to produce this lovely, full bodied, well balanced Pinot Noir.

Evan's Vineyard, located in Underwood, Washington along the Columbia River, is owned by Philip and Sheryl Jones. They are known for producing New Zealand's highly respected Goose Bay wines. Philip and Sheryl were attracted to the Northwest because of its cool climate viticulture and stunning scenery.
