ADAMA | GALILEE

MERLOT | Dry Red Wine

High-quality Merlot grapes grown in the Upper Galilee Basalt soil were harvested. Aged for 12 months in oak barrels, this medium to full-bodied wine has soft tannins with hints of berries, plums and wood. It can be enjoyed now but will also cellar nicely.

Out of our desire to restore the natural balance we established our ecological vineyards, in partnership with the Society for Preservation of Nature. The owls have returned and so have other animals and plant life, restoring the ecological balance. In this harmonious environment good grapes grow. This is how great wine is born.
