

TEQUILA
Los
Generales
WHITE & GOLD
AVAILABLE SIZES:
1 LITER
1.75 LITER
750ML

Los Generales is the highest quality mixto tequila on the market. Mixto Tequila, like Cuervo Especial or Montezuma, are distilled from at least 51% Blue Agave and 49% from other sugars. Other Mixto tequila's use the minimum (51%) amount of Agave under that the Mexican law allows, while using cheaper sources of sugar, like sugar beets or corn, for the remaining 49%.

Los Generales Tequila is a superior product because our tequila is made with 58% Agave, and the remaining sugar is pure cane sugar. Our water comes from a deep well which is made up of water which runs from the highlands. We take these ingredients and distill them twice in a pot still, charcoal filter them, and bottle at the distillery to create an incredibly smooth tequila with a clean agave nose. Los Generales is the perfect choice for mixed drinks and cold shots.
